		AL DETERMINATION						
C	ompleted:	Desktop determination	\boxtimes	Date: December 29, 2006				
		Site visit(s)	\boxtimes	Date(s): March 24, 2006, December 19, 2006				
Jurisdictional Determination (JD): Preliminary JD - Based on available information, there appear to be (or) there appear to be no "waters of the United States" and/or "navigable waters of the United States" on the project site. A preliminary JD is not appealable (Reference 33 CFR part 331).								
×	Approved .	JD – An approved JD is an app Check all that apply:	ealal	ble action (Reference 33 CFR part 331).				
	There are "navigable waters of the United States" (as defined by 33 CFR part 329 and associated guidance) within the reviewed area. Approximate size of jurisdictional area:							
	☐ There are "waters of the United States" (as defined by 33 CFR part 328 and associated guidance) within the reviewed area. Approximate size of jurisdictional area:							
	☐ There are "isolated, non-navigable, intra-state waters or wetlands" within the reviewed area. ☐ Decision supported by SWANCC/Migratory Bird Rule Information Sheet for Determination of No Jurisdiction.							
		SDICTIONAL DETERMINA		PN: s "navigable waters of the United States":				
Ê				ne ebb and flow of the tide and/or are presently used, or have been used in				
_				nsport interstate or foreign commerce.				
	-							
				(a) as "waters of the United States":				
L] (1) The p	resence of waters, which are co	arren	tly used, or were used in the past, or may be susceptible to use in				
_	interstate or foreign commerce, including all waters which are subject to the ebb and flow of the tide. (2) The presence of interstate waters including interstate wetlands ¹ .							
Ë	(3) The power	resence of other waters such as lands, sloughs, prairie pothole	s intra s, we	astate lakes, rivers, streams (including intermittent streams), mudflats, sandflats, t meadows, playa lakes, or natural ponds, the use, degradation or destruction of which ling any such waters (check all that apply):				
				ate or foreign travelers for recreational or other purposes.				
	☐ (ii) f	rom which fish or shellfish are	or c	ould be taken and sold in interstate or foreign commerce.				
_				strial purposes by industries in interstate commerce.				
卢	= ` ' •	ndments of waters otherwise d						
늗		resence of a tributary to a water resence of territorial seas.	iden	ninea in (1) (4) above.				
			o oth	er waters of the US, except for those wetlands adjacent to other wetlands.				
Z	a (/) The pr	control of worldings adjustent to	Jul	or maiore or the ob, except for those wedates adjacent to enter wedates.				

Rationale for the Basis of Jurisdictional Determination (applies to any boxes checked above). If the jurisdictional water or wetland is not itself a navigable water of the United States, describe connection(s) to the downstream navigable waters. If B(1) or B(3) is used as the Basis of Jurisdiction, document navigability and/or interstate commerce connection (i.e., discuss site conditions, including why the waterbody is navigable and/or how the destruction of the waterbody could affect interstate or foreign commerce). If B(2, 4, 5 or 6) is used as the Basis of Jurisdiction, document the rationale used to make the determination. If B(7) is used as the Basis of Jurisdiction, document the rationale used to make adjacent to an unnamed tributary to Grand Lake, which flows into the St. Louis River, a Section 10 water of the U.S.

Other information (please specify): Corps map/drawing

Wetlands are identified and delineated using the methods and criteria established in the Corps Wetland Delineation Manual (87 Manual) (i.e., occurrence of hydrophytic vegetation, hydric soils and wetland hydrology).

²The term "adjacent" means bordering, contiguous, or neighboring. Wetlands separated from other waters of the U.S. by man-made dikes or barriers, natural river berms, beach dunes, and the like are also adjacent.
